Layering sounds

Week 9

1

How do you start your day?

What makes you unique? What makes you feel proud?
What makes you special?

Good To Be Me

2

Listen to this.....

Musicians mix and layer the sounds they are making to create **texture**. This makes the music sound more interesting.

Listen to this song. Can you hear the different layers of sounds?

Where about in the music is the **texture thin**? Where is it **thick**?

Make a list of all the different instruments you can hear throughout this piece.

Nitin Sawhney -Homelands

3

Try this.....

Click on the link below to create music with a virtual group of beatboxers. Can you layer the sounds to create **thick** and **thin** musical **textures**?

What does it sound like when all the beatboxers perform together?

Why not try using **found sounds** around your home, to perform your music?

Incredibox (Drag and drop the icons onto the characters)

Found Sounds

- Choose 4 **found sounds**
- Decide on a rhythm or melody for each sound
- Create **thick** and **thin texture** by sometimes having all your sounds playing together and sometimes having just one

Ask members of your family to help you. Remember to keep a **steady pulse**
