

Tri Golf Competition
Monday 12th March
@ St Paul's Primary School

St Paul's hosted their second Edsential competition of the year after they hosted the Boccia competition in January. This time it was a tri-golf competition they were hosting, and it proved to be just as successful as the Boccia!

It was great to see 7 schools attending the event that included: St Pauls, St Peter's, Somerville, The Priory, West Kirby, St Bridget's and Holy Cross. For the majority of schools attending, tri-golf is a new sport for them, so it was great to see some pupils trying the sport for the first time.

The event was due to be delivered outside but due to the adverse weather the event was adapted and delivered in the school hall. The teams rotated round 6 different activities that tested the pupils on their putting and chipping skills. The schools had a practice at each activity before spending 7-minutes to try and score as many points for their team as possible.

Tri-golf is a great team event that requires strategy, team work and skill and these qualities were shown by all the teams who took part.

"I can't believe how successful the event was. I thought it would be rained off and it was great use of the indoor space" West Kirby teacher

"It was amazing, I've never played golf in my life" St Peter's pupil
